Intersection between ART & ARCHITECTURE

How do you conceive a project which has the potential to become a monumental building of the capital city of the state?

SKYDECK 36 in kudson, Gandhinagar, is proposed in the most prime location.

For us, as architects, it was important to come up with a solution which was technically superior, commercially viable as well as aesthetically appealing.

We have always believed in creating value 'per sq. Ft.' for our client as well as the end user. The design incorporates all the basic fundamentals of good architecture viz. Efficient space planning (floor plans), simple structural grid, good floor to ceiling height, ventilation, natural light, ample amenities and above all a very efficient master plan.

We can confidently say that we have been able to achieve all the above parameters as well as create a balance between art and architecture.

SKYDECK 36 is a complete package in which we take immense pride for designing.

SETTING BENCHMARKS ABOUT THE GROUP

Over the years, Unique infracon has taken long strides to become one of the most respected developers of Gandhinagar. With a number of successfully completed projects, our works speaks for itself. Royal Revanta 1 & 2 (Nikol), Royal Revanta 3 (Gandinagar), Skydeck 78 & Safal Bliss (Gandhinagar) The Empire have been the choice of customers. With an eye towards detailing, a customer friendly approach and a rock solid experience, we always try to create more than just ordinary hence setting benchmarks for generations to come.
